PROFESSIONAL SUMMARY

A skilled Full Stack Developer with experience in developing scalable and secure applications. Currently working at **BigBang Boom Solutions Pvt. Ltd** on a **defense project (SAMA)**, where I contribute to the design, development, and implementation of high-performance solutions. Proficient in **Angular, Flask, and SQL**, Geoserver with a strong foundation in **backend and frontend development**. Adept at problem-solving, collaborating with cross-functional teams, and optimizing applications for performance and security. Passionate about learning new technologies and enhancing my expertise in **software engineering**.

WORK EXPERIENCE

Big Bang Boom Solutions Pvt. Ltd

Full Stack Developer | Aug 2024 - Present

- Currently working on a **defense project** named **SAMA**, contributing to its development and implementation.
- Collaborated with the team to develop secure and scalable solutions for the project.
- Utilized technologies such as **Angular, Flask, PostgreSQL and Geoserver** to build and optimize functionalities.
- Ensured the application met security and performance requirements, aligning with defense industry standards.

SKILLS AND ACCOMPLISHMENTS

- **Python3:** Skilled in Python with experience using Flask to develop and deploy web applications. Capable of creating RESTful APIs, handling data, and designing backend logic for various applications.
- **Core Java:** Proficient in Java with a comprehensive understanding of object-oriented programming principles, data structures, and algorithms. Developed Java-based applications and solved complex problems through optimized code solutions.
- **Java Frameworks:** Familiar with Spring Boot and Hibernate for building robust, scalable, and maintainable applications. Knowledgeable in setting up Spring Boot applications, handling dependency injections, and using Hibernate for ORM (Object-Relational Mapping).
- **Database Management:** Proficient in SQL for crafting complex queries, database design, and handling relational databases. Experienced in structuring, indexing, and optimizing queries for efficient data retrieval.
- **Web Development:** Knowledgeable in front-end technologies like HTML, CSS, and JavaScript, with hands-on experience in building responsive UIs. Skilled in Angular for creating modular and dynamic single-page applications.
- **Version Control (Git):** Experienced with Git for version control, code management, and collaboration on multi-developer projects. Familiar with branching, merging, and pull requests to streamline the development process.
- **Problem-Solving Abilities:** Strong analytical skills for identifying and resolving complex technical challenges. Competent in applying logical approaches to troubleshoot, debug, and enhance code functionality.
- **Effective Communication:** Skilled in team collaboration and communication, with experience working alongside cross-functional teams, stakeholders, and clients to achieve project goals effectively and on time.

SKILL SETS

Language

- HTML
- CSS
- Javascript
- Bootstrap
- Type Script
- Python
- Java

Frame works

- Flask
- Python Qt
- Angular
- Spring Boot
- Hibernate

PROJECT EXPERIENCE

Hospital Management System (Full Stack)

- **Description:** Developed a full-stack application for managing hospital operations, including patient registration, appointment scheduling, medical record keeping, and billing.
- **Technologies Used:** Java, Spring Boot, SQL, Angular, HTML, CSS, JavaScript
- **Key Contributions:** Designed and implemented the database schema, backend APIs, and front-end interface. Integrated features for user authentication and role-based access control.

E-commerce Application (Full Stack)

- **Description:** Created a full-stack e-commerce platform with features such as product browsing, cart management, checkout, and order tracking.
- **Technologies Used:** Java, Spring Boot, SQL, Angular, HTML, CSS, JavaScript
- **Key Contributions:** Developed the product catalog and order management modules, implemented secure payment processing, and optimized the front-end for seamless user experience.

Digital Vaccination Card (University Project)

- **Description:** Built a digital solution to manage and validate vaccination records, designed to streamline verification processes for institutions and individuals.
- **Key Contributions:** Developed the database schema to store vaccination records securely, created front-end forms for data entry, and implemented features for verifying user information.

CERTIFICATIONS

- **Certified Java Full Stack Development:** Comprehensive certification covering Java, Spring Boot, HTML, CSS, JavaScript, and SQL – Edubridge Pvt Ltd
- **Courses on Cursa:** Completed modules in HTML, CSS, Java, JavaScript, and MySQL, providing hands-on experience in full-stack web development.
- **Industry 4.0 – SkillLync, Naan Mudhalvan Initiative:** Completed an industry- focused certification covering modern software engineering methodologies and tools.
- **Embedded Programming with Arduino UNO:** Practical experience in embedded systems programming using Arduino for IoT-based applications.

COURSES

- **Java Full Stack Development**
Completed at **Edubridge India Pvt. Ltd**, covering back-end and front-end development, including projects in Java, Spring Boot, HTML, CSS, JavaScript, and MySQL.
