Education

Thapar Institute of Engineering and Technology

Bachelor of Engineering in Computer Engineering | CGPA:7.84

2021 - 2025

Patiala, India

SRN International School

Senior Secondary (12th) | CBSE, 87.6%

Grad.2021

Jaipur, Rajasthan

SRN International School

Senior Secondary (10th) | CBSE, 86.6%

Grad.2019

Jaipur, Rajasthan

Projects Work

InsightInk | Flutter, NewsApi, Dart | Link

March 2024

- Seamlessly integrated NewsAPI.org API to fetch and display trending news articles, ensuring users are always informed with the most up-to-date news across multiple topics.
- Built a Flutter-based mobile application, InsightInk, to deliver personalized, real-time news from a wide variety of categories using NewsAPI.org.
- Analyzing trends to deliver up-to-date and relevant content to users.
- Implemented an intuitive user interface that enables users to effortlessly explore news categorized by their interests, enhancing engagement and usability.

Sentiment Analysis | Machine Learning | Link

Jan 2024

- Developed a sentiment analysis system that accurately extracted emotional tones from articles, achieving an 86% accuracy rate.
- Built web scraping pipelines using Python (requests, BeautifulSoup) to collect data from diverse online sources.
- Leveraged advanced NLP techniques (tokenization, stopword removal) with NLTK to enhance sentiment analysis precision.
- Created an interactive Tableau dashboard to visually present sentiment analysis insights for enhanced data comprehension.

College Prediction | Machine Learning

Jan 2024

- Trains an AI model using supervised learning techniques to predict college admissions based on students' exam scores.
- Applied a range of machine learning techniques, including Simple Linear Regression for forecasting and data analysis, Artificial Neural Networks for automated pattern recognition and classification through multi-layered systems, and Decision Trees for hierarchical data classification.
- Improved prediction accuracy by utilizing Random Forests, which employed ensemble learning with numerous decision trees to build robust and dependable models for both classification and regression.

Technical Skills

Languages: C, C++, Python, SQL, HTML, CSS, Matlab, R programming.

Frameworks: Flutter, Flutter Flow.

Relevant Coursework: Data Structures and Algorithms, Database Management System, Operating System, Computer Networks.

Software Tools: VSCode, Xcode, Flutter Flow, MS Excel.

Skills: Git, GitHub.

Achievements

- Solved over **600+** problems on different Coding platforms ([LeetCode](#), [GFG](#))

Certification

- Udemy - App Development (Flutter, Dart) Jan 2024
- Coding Ninjas - Certification of Excellence in Data Structures in C++ Dec 2023
- Coding Ninjas - Certification of Excellence in Basics of C++ June 2023
- ELC Activity - Mobile App Development March 2022
