- **Percentage:** 70.6% aggregate.

EXPERIENCE

- Thomas Cook India Limited - MICE** July 2023 – November 2023
Freelance Mumbai, Maharashtra
- Collaborated with cross-functional teams to ensure seamless execution of MICE (Meetings, Incentives, Conferences, and Exhibitions) projects, adhering to tight deadlines.
 - Managed invoicing processes for high-profile clients such as Asian Paints, ICICI Lombard, and TATA AIG, achieving **100% accuracy** and ensuring timely financial operations.
 - Streamlined invoicing workflows by coordinating with client representatives, enhancing process efficiency and reducing turnaround time.
 - Provided exceptional client support, leveraging strong communication skills to resolve issues.

PROJECTS

- An Intelligent Event Management Platform** | *Next.js, Tailwind CSS, Supabase, Django, PostgreSQL, Machine Learning* View
- Built **Attendate.com**, enabling users to seamlessly explore and host events across diverse categories.
 - Designed a responsive and user-friendly interface for intuitive event discovery and engagement.
 - Developed core functionalities for **event creation, user registration, and event management** using a scalable Django backend and PostgreSQL database.
 - Implemented an AI-powered chatbot using **GPT-3.5** for enhanced user support and event discovery.
 - Developed an **AI-driven event search system** for accurate and context-aware event recommendations.
 - Leveraged **ML-based recommendation algorithms** to personalize event suggestions based on user preferences.
- VegaCodes: Talent Acquisition and Services Platform** | *Next.js, Firebase, Tailwind CSS, Firestore* View
- Designed a platform to showcase company services and streamline job and internship management.
 - Implemented server-side rendering with Next.js to optimize SEO and performance.
 - Integrated Firebase for secure authentication and real-time job listings with Firestore.
 - Automated certificate generation, reducing manual processing time.
 - Enhanced user experience using **Tailwind CSS** for a dynamic and responsive UI.
- PlantPulse - Plant Disease Detection Web App** | *Next.js, Tailwind CSS, Plant.id API* View
- Developed **PlantPulse**, a web app that identifies plant diseases by analyzing leaf images using the **Plant.id API**.
 - Built a responsive and intuitive user interface using Next.js and Tailwind CSS.
 - Integrated Plant.id API for image uploads and accurate disease diagnoses with care recommendations.
 - Enhanced user experience with real-time image validation and status updates during analysis requests.

SKILLS

Programming Languages: Python, SQL
Frameworks & Libraries: React.js, Next.js, Tailwind CSS, Django
Databases: PostgreSQL, Supabase, Firebase
Tools & Platforms: Git, GitHub, VS Code, Vercel
Soft Skills: Leadership, Team Collaboration, Communication, Adaptability
